## **HFT Prop Firms List as of January 29, 2024**

**Hello, Fellow HFT Prop Firms,**

I am hoping this PDF list, of Prop Firms that currently allow you to pass the evaluation challenge phase via an HFT EA Bot, will be a great resource for all of you. This can be a great way to fast-track your way to leveraging large amounts of capital in the markets.

Also, we will be updating it often to keep up with new discount codes, rule changes, new HFT prop firms that we find, and when others stop allowing HFT, you will know that as well.

At this time, **AMC-FX** is able to pass any of these prop firms within 30 Minutes to 3 days. Some HFT prop firms have one-phase HFT allowed evaluations, some have two-phase HFT allowed evaluations, and some have both.

Also, please keep in mind that factors such as: Leverage, different maximum allowed lot sizes, different brokers, slippage, spreads, commissions... all of these things affect how our HFT EA Robot works. And of course, market conditions play a huge part as well.

We can pass an account with many prop firms in as fast as 10 minutes one day, and the next time, with the same prop firm, and the same account size, it takes us two days to pass it.

So please give us up to 3 days to pass. The average though is one to two days. Often, we pass even two-phase challenges in 1 day.

### **We Have the Lowest Passing Prices in the Industry!**

All Accounts up to **\$50,000** – Only **\$99!**

**\$100K** Accounts –**\$159**

**\$200K** Accounts –**\$199**

**\$400K** Accounts - **\$299**

**\$500K** Accounts - **\$359**

**\$600K** Accounts - **\$399**

Just purchase a challenge with one of the prop firms below and we will pass the challenge for you - Usually in 1 hour to 1 Day! With some of these, you can be trading your funded account on the same day you pass. With **Quantec**, and **Fast Forex Funding** for example, you can trade your account, usually in less than an hour after we pass it for you.

**Whether you trade manually or use a super conservative EA that only makes 5% a month profit you will now have:**

\$50K Account at 5% per Month = **\$2500 a Month** (Minus the Prop Firm's Cut)

- Times Five Accounts = **\$12,500 a Month**

\$100K Account at 5% per Month = **\$5000 a Month** (Minus the Prop Firm's Cut)

- Times 5 Accounts = **\$25,000 a Month**

\$200k Account at 5% per Month = **\$10,000 a Month** (Minus the Prop Firm's Cut)

- Times 5 Accounts = **\$50,000 a Month**

*Genesis Forex Funds*

***30 Day Payouts***

***All 5-Star Reviews on Trustpilot!***

This HFT Prop Firm has Great Reviews on Trustpilot. But their consistency rules are a little tougher than other HFT prop firms. Also, once you get the funded account, all trades must have a stop loss. However, there are no profit caps even in the first payouts, unlike many other HFT prop firms.

- **Stop Loss:** Stop Loss is Required on Funded Account (not on evaluation account)
- **Leverage:** 1:100
- **Trade Times:** News trading is allowed, but weekend trading is not allowed on the Funded Account.
- **Grid:** Not allowed
- **Payouts:** First payout after 14 days. Subsequent Payouts Every 30 Days.
- **Drawdown:** Daily Drawdown Calculated from Starting Balance for the Day. The 10% Maximum Total Drawdown is a trailing metric based on both the

account balance and equity. For example, if you start with a \$100,000 account, the maximum loss level is set at \$90,000. If the account balance or equity reaches \$110,000, the trailing drawdown meter will be set at \$99,000. This trailing drawdown always follows the highest balance or equity by 10%.
